Application/Control Number: 10/050,234

Art Unit: 3652

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Linda D Wheeler on June 2, 2004.

The application has been amended as follows:

The sentence "The present invention is a continuation of Disclosure Document Number 489,125 filed on Feb. 22, 2001." Under the subtitle "RELATED APPLICATION" has been deleted and replaced with the word -- NONE --; in the abstract (Appendix "B" filed February 9, 2004), line 2, the word "This" before "apparatus allow" has been changed to -- An industrial roll handling --; and in the specification (Appendix A under "Appendix to Specification" filed February 9, 2004), on page 2, line 7, the phrase "Fig. 5" after "as seen in" has been changed to -- Fig.

6 --.

Drawings

- 2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: in **Fig. 3**, the reference number "17" has been changed to -- 27 -- (referring to "pin"). In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
- 3. The following is an examiner's statement of reasons for allowance:

Application/Control Number: 10/050,234

Art Unit: 3652

The closed reference, **Strange** (4,684,310) shows a wheel handling apparatus having a truss body (20-23), an axle (13) attached to the truss body, a collar (52) attached to the end of the axle, a rotatable plate (60), and a pair of bearings (53,53). However, Strange (4,684,310) does not show a triangular truss body, a means for locking the attachment legs to a machine, an inner barrel fixedly secured to the surface of the triangular truss body and further having a plurality of apertures, an outer barrel surrounding the inner barrel wherein the outer barrel is freely rotatable and having an aperture, and a plate coupled to the outer barrel, and a pin removably inserted through the aperture of the outer barrel and through one of the apertures in the inner barrel in combination with other structural limitations.

Okada (5,020,963) (see Examiner's Reference Cited, PTO-892) shows a pair of attachment legs (11,11), a means (12) for locking the attachment to a forklift, a means (3,3) for securing a cylindrical object, and a plate (13) to secure the object. However, Okada (5,020,963) does not show a triangular truss body, a pair of concealment plates, bearing casings, an axle, a collar, inner and outer-barrels, and a pin for alignment in combination with other structural limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3652

Any inquiry concerning this communication or earlier communications from the examiner should be directed to PAUL T. CHIN whose telephone number is (703) 305-1524. The examiner can normally be reached on MON-THURS (7:30 -6:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, EILEEN LILLIS can be reached on (703) 308-3248. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
